GUIDE TO VAG PRODUCTION CODES

PR Codes are Production Codes for all of the installed equipment in the vehicle. This includes everything from Brake System or Powertrain details (such as Engine and Transmission Codes), to the color of the paint on the car. When configuring new modules using Coding or Adaptation it is essential to obtain this information.

The PR Codes can be found in one of two places on the vehicle:

1. On the sticker near the Spare Tire Well on the floor of the vehicle.
2. The duplicate of that sticker on the 1st Page of the Service/Maintenance Manual in the Owner's Manual.

Following is an example of PR code label:
